INTRODUCTION

What is fortune name?

The luckiest name is called fortune name. It makes one a well known thing or a well known person easily in the world. This article's main objective is to make all the people fortunate. Following examples emphasise the formula to frame fortune names through Chaldean numerology.

Chaldean Numerology

According to Chaldean numerology the numerical value of alphabet is given below:

A I J Q Y	-	1	E H N X	-	5
B K R	-	2	U V W	-	6
C G L S	-	3	O Z	-	7
D M T	-	4	F P	-	8

There is no alphabet for number 9.

Formula to frame Fortune Names

Step 1: First of all we should calculate the name number for the name.

(i.e) the name number of SURYA is

$$S + U + R + Y + A = 3 + 6 + 2 + 1 + 1 = \boxed{13}$$

Step 2: Again we add the numbers to make a single digit

$$\text{So, } \boxed{1 + 3 = 4}$$

Letters for number 1 - A I J Q Y

Letters for number 3 - C G L S

Letters for number 4 - D M T

If the number 9 comes we should omit that.

Step 3: If the above name either starts or ends with A I J Q Y / C G L S / D M T it should be consider as fortunate. The first letter or last letter numerical value should be 1 or 3 or 4 is the best.

Step 4: The above name SURYA starts with S and also ends with A. So, the above name is highly fortunate.
